

When You can't Integrate, Connect It

Connect HubSpot to systems that don't have APIs, can't be integrated, or would cost thousands to build.

Karana SFTP Sync securely exchanges files between HubSpot and virtually any system without custom development.

Why Karana Instead of custom development

TIME TO VALUE
Ready in minutes
vs. weeks

DEVELOPERS
No developers required
vs. \$8,000-\$15,000 build

MAINTENANCE
Managed for you
vs. ongoing maintenance

APPROACH
Repeatable automation
vs. one-off scripts

MONITORING
Built-in monitoring
vs. hard to monitor

Why teams choose Karana

- ✓ Connect systems that can't be Integrated
- ✓ Avoid expensive custom development
- ✓ Automate repetitive file transfers
- ✓ Keep HubSpot and legacy systems in sync
- ✓ Improved data accuracy
- ✓ Deploy in minutes instead of weeks

Connect what matters

Legacy ERP Systems

Industry-specific software

On-premise software

Accounting systems
